WHAT ARE SAFE RATES?

SAFE RATES ARE fair pay standards in road transport that:

- Allow drivers to take breaks and respect driving and rest time regulations
- Reduce fatigue and crashes, making our roads safer
- Apply to all drivers regardless of their nationality, gender, or if they are subcontracted or self-employed

ITF UNIONS are winning Safe Rates agreements and legal systems that:

- Include unions in setting and enforcing safe rates
- Require all industry actors to comply

GOOD JOBS = ROAD SAFETY

THE INTERNATIONAL LABOUR ORGANIZATION (ILO) recognises that drivers must be protected to keep our roads safe. Governments and companies must guarantee:

- Fair pay (safe rates)
- Adequate rest time
- Transparent written contracts
- Social security
- Secure rest areas with clean welfare facilities
- Protection from violence and harassment
- Trade union rights

WE'RE FIGHTING TO MAKE THESE ILO PRINCIPLES APPLY TO YOU.
